

Sponsorship for needy Children wanted!

As part of the lower caste system in India, Gypsy children are suffering more than others. Specially children from poor families have less chance for school education, as their parents can't afford to pay their education. So we decided to focus on them and established a child aid program to improve their hopeless situation.

For this ministry search Sponsors who are ready to take part to help these young children. Are you also ready to join us?

All inclusive for only 0,57 £ * daily

- the sponsored child will receive three times a day abundant and good food,
- will be dressed with new clothes several times a year,
- will be admitted in one of our children homes,
- will attend a government school and receive uniform, books, stationery and school fee
- will have a chance to learn about Jesus Christ and start a personal relationship with him
- finally will receive the chance to escape poverty and start a successful future.

* or monthly £ 17.- or 25,- €

Why with us?

- A sponsorship with us is not an anonymous help. You can by own request have a personal pen friendship with your godchild. It will share it's joy and suffer and inform you about it's daily life.
- Thanks to your support for it's school education and vocational training it will independently one day fend for itself.
- We are not a huge organization with an expensive administration and not provable costs, but a small effective charity registered organization with many volunteers, who invest their personal engagement to meet our Christian and social responsibility to help the poorest of poor.
